Use the following links to update your printed Texas Administrative Code (TAC). Tables of contents and subchapter files are available in Adobe Acrobat PDF format. This format provides the capacity to obtain printed copies from the Internet that are compatible with your printed copy of the TAC.

Texas Education Agency - 19 TAC Chapter 112

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems. In contrast to biochemistry, which involves the study of the chemistry of biomolecules and regulation of biochemical ...

Genetics is a branch of biology concerned with the study of genes, genetic variation, and heredity in living organisms.. Gregor Mendel, a scientist and Augustinian friar, discovered genetics in the late 19th-century. Mendel studied "trait inheritance", patterns in the way traits are handed down from parents to offspring. He observed that organisms (pea plants) inherit traits by way of discrete ...

Genetics - Wikipedia

The eukaryotic cell cycle comprises a sequence of events that culminate in cell division. Proteins at different checkpoints throughout the cell cycle regulate progression from one phase to the next – a process that usually works without errors. When errors do occur, they can have catastrophic ...
