The version attribute specifies the EPUB specification version to which the given EPUB Package conforms. The attribute must have the value "3.1" to indicate compliance with this version of the specification.. The unique-identifier attribute takes an IDREF [XML] that identifies the dc:identifier element that provides the preferred, or primary, identifier.

A barcode (also bar code) is an optical, machine-readable, representation of data; the data usually describes something about the object that carries the barcode. Traditional barcodes systematically represent data by varying the widths and spacings of parallel lines, and may be referred to as linear or one-dimensional (1D).
